PROFILE

- As a B.Com graduate with a passion for technology and a strong foundation, I have successfully transitioned into the field of full stack development.
- Through self-directed learning, online courses, and hands-on projects, I have gained proficiency in both front-end and back-end development.
- My background in commerce has honed my analytical skills and attention to detail, while my technical training has equipped me with problem-solving abilities and a drive to continuously learn and adapt in the ever-evolving tech landscape.
- I am eager to bring my diverse skill set and enthusiasm for technology to a dynamic development team.

SKILLS

Front-End: HTML, CSS, JavaScript, React, Bootstrap, Tailwind

Back-End: Java, MySql

IDE: Eclipse, Visual Studio Code, MySQL Workbench, IntelliJ

SOFT SKILLS

Strong Communication - Problem Solving - Analytical Thinking - Adaptability - Flexibility - Learning Agility - Empathy - Self Learner - Self Regulation

PROJECTS

Portfolio (Front End)
Skills : React-JS, Email-JS
- Using Reacts component-based architecture, I have crafted a modern and responsive Portfolio website that adapts beautifully to various devices and screen sizes.
- Along with **ReactJS**, I have used **EmailJS** for receiving emails.

Hospital Management System (Back End)
Skills : Java, MySQL
- Creation and management of appointment slots and check for doctors availability.
- Registration and recording of Patients and Doctor with essential details.
- Used **Java** for backend development and **MySQL** for database management.
- **JDBC** API for connecting Java applications with relational databases and executing SQL queries.

MoBuy (Full Stack)
Skills : React-JS, Boot Strap, Java SpringBoot, MySQL
- MoBuy is a web application which allows user to perform **CRUD**.
- Used **ReactJS** for building Front end along with **Bootstrap** for styling UI.
- Used **Java Spring Boot** for backend development and logic implementation.
- Used **MySQL** database for storing product data and RESTful API for receiving and sending request.
